Troubleshooting Federal Child Count Reports

1

The Department of Education and Workforce funds development of EMIS training materials as part of the EMIS Alliance grant. There is an expectation that ITCs will utilize these materials in training provided to your districts. That said, there are restrictions on use of the EMIS Alliance materials as follows: Materials developed as part of the EMIS Alliance program must be provided at no cost to your training participants. If you utilize the EMIS Alliance training materials – in whole or in part – you must not charge participants a fee to attend the class where the materials are used. Likewise, you may not use the materials or any portion thereof in any event where a fee is charged to attend. Exceptions must be approved in writing by the Department in advance of scheduling/promoting any event which may violate these restrictions.

Questions regarding appropriate use of EMIS Alliance materials, or requests for exception to the restrictions noted above, should be directed to Erica Weaston [Erica.Weaston@education.ohio.gov].

2

Overview

- The Federal Child Count (FCC)
  - Counts students with disabilities who are receiving special education services according to their IEPs as of October 31
  - Determines the amount of Special Education Part-B IDEA and Early Childhood Special Education funds Ohio receives
  - Is collected from all LEAs (except for ESCs and JVSDs) through the Education Management Information System (EMIS) and submitted to the US Department of Education (USDOE)
  - The FFC report is about funding and accountability measures

EMIS Alliance 3

3

Federal Child Count and Accountability (Special Education Profile)

- FCC reports are not just about student funding
  - FCC reports also play an important role in special education accountability by identifying which students are included in the following indicators based on race, ethnicity, Least Restrictive Environment (LRE), grade level, and disability:
    - Indicator 4: Rates of Suspension and Expulsion
    - Indicator 5: School-Age Educational Environment
    - Indicator 6: Preschool Educational Environment
    - Indicator 9: Disproportionate Representation (All Disabilities)
    - Indicator 10: Disproportionate Representation (Specific Disabilities)
    - Significant Disproportionality: Identification, Placement, and Discipline

EMIS Alliance 4

4

Federal Child Count and Accountability (Special Education Profile)

- FCC data cannot be updated after the December reporting deadline.
- Districts need to verify race/ethnicity information for students with disabilities, particularly for Indicators 4, 9, 10, and Significant Disproportionality (Identification, Placement, and Discipline).
- Appeals for the Special Education Profile will not be accepted for these indicators in the future.
- **Validate, Validate, Validate!**
- **Special Education Accountability Trainings**
  - https://education.ohio.gov/Topics/Special-Education/Special-Education-Data-and-Funding/Special-Education-Accountability-Resources/Accountability-Training

5

EMIS Data Collections and the FCC Snapshot

- Collections containing the FCC report
  - Beginning of Year Student (S) Collection
  - SOES Beginning of Year Student (S) Collection
- Collections are scheduled to close December 18, 2026
  - FCC reporting ends when the Student and SOES Collections close
  - There is no Final Correction Opportunity for the FCC

EMIS Alliance 6

6

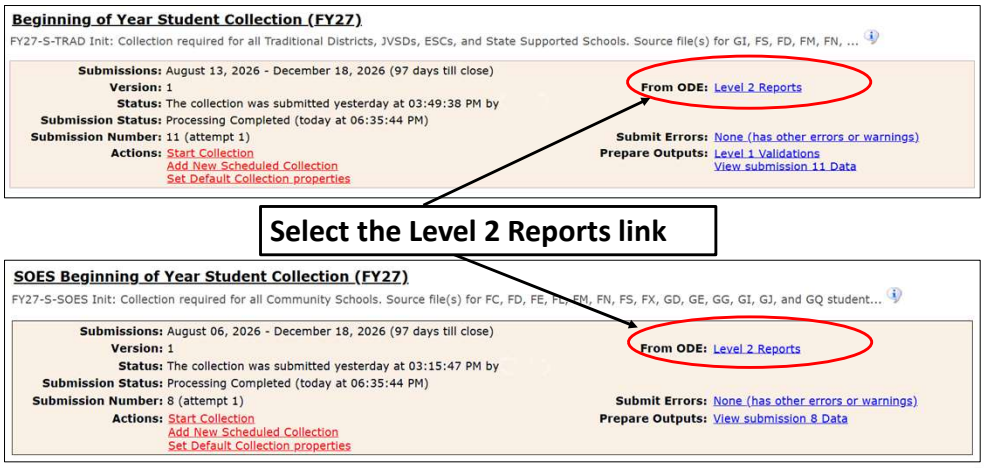

FCC Reports

- Level 2 Reports
  - (FCCD-001) Federal Child Count Detail
  - (FCCS-001) Federal Child Count Statement of Assurances
- FCC reports are updated nightly
- Reports may include data reported by other LEAs
- Always review the most recent version of the reports throughout the data collection process
- Submit updated EMIS data to correct any errors in the reports

EMIS Alliance 7

7

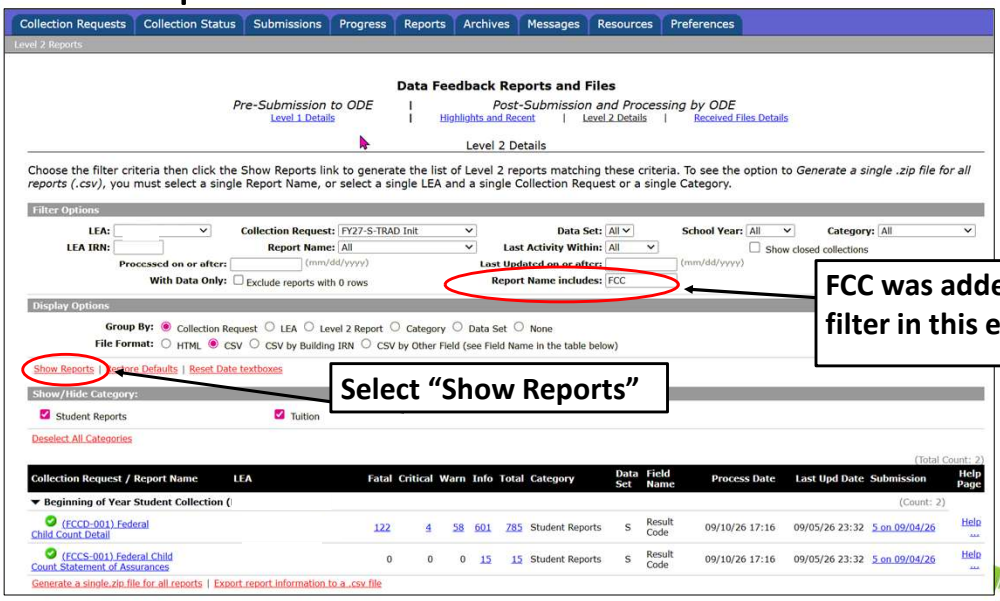

Level 2 Reports

EMIS Alliance 8

8

FCC Reports

9

Formatting the FCC Detail Report

- Open the (FCCD-001) Federal Child Count Detail Report
  - Wrap the header row
  - Freeze the top row
  - Expand all columns
  - Apply filters
  - Run your macro, if available

10

Quick Check

The Federal Child Count Reports are generated throughout the Beginning of Year Student and SOES Collections and are updated nightly. Regularly review the most recent version of the FCC Detail Report. Format the report and apply filters to make it easier to identify and troubleshoot potential reporting issues.

- ❑ Are you using the most recent version of the report?
- ❑ Can you open the CSV report and format it to begin the review process?
- ❑ Can you apply filters to every column?

EMIS Alliance 12

12

Troubleshooting the FCC Detail Report

We will troubleshoot by reviewing

- FCC Report Data
  - Severity Codes
  - FCC Inclusion Flags
  - Status Codes
  - Disability and age information
- Inclusion Rules - Who is and is not included in my FCC?
- Corrective actions

13

13

Severity Codes

- Severity Codes
  - Report is sorted from least severe to most severe
  - Each Status Code correlates to a specific Severity Code
  - All students should be reviewed regardless of Severity Code

	A	B	C	D	E	F	G	H	I	J	K

EMIS Alliance

Federal Child Count-Race and Ethnicity

- Race for students with disabilities on the Special Education Profile is based on the FCC report using the October 31 snapshot date.
- **Coming Soon**: DEW is adding a new Race/Ethnicity column to the FCC report by the end of October.

EMIS Alliance

Who is included in my FCC?

- In most cases, students count at their resident district
- Exceptions:
  - Students attending:
    - Community Schools
    - STEM Districts
    - Buckeye United (DYS)
  - Non-Public Students Receiving Related Services:
    - Counted at the traditional district providing the related services, if an active IEP event is reported as of October 31

17

Who is not included in my FCC?

- Students with a disability as of October 31 who do not have an active IEP event reported as of October 31
- Students reported with the following IEP outcomes:
  - IEPR – IEP Complete – Parental Refusal
  - IENS – IEP Complete – Not Served
  - IEDP – IEP Resulted in Due Process
- For more details and exceptions, refer to the FCC Level 2 Report Explanation, section “Include in USDOE Count”

18

FCC Report Data

- Disability Condition Code – DISAB CNDTN CODE
  - Student must have a disability reported in EMIS as of October 31 to be included on the FCC report
  - Review carefully to ensure accuracy
- Student Age Number – STDNT AGE NUMBER
  - Represents the student's age as of October 31

  - Ages 3-5: LRE = IE51
  - Ages 6 or older: LRE = IE39
- B - Change to DYS-Department of Youth Services LRE
  - Appears only on DYS report

Issues the FCC Report May Not Identify

- Incorrect disability condition
- Incorrect IEP dates
- Incorrect IEP outcome
- Incorrect LRE
- Incorrect How Received or How Received IRN
- Incorrect Legal District of Residence
- Reporting by another EMIS entity
- ODDEX discrepancies

Quick Check

The FCC Detail Report contains student-level data used to determine inclusion in the Federal Child Count. Review the FCC data carefully to verify accuracy, remembering that not every data issue will be identified on the report.

- ❑Are all students appearing on the report as expected?
- ❑Has the data owner verified the data for accuracy?
- ❑Has updated EMIS data been submitted to correct any inaccuracies identified on the report?

25

25

FED CCT STATUS CODE

FED CCT STATUS CODE and FED CCT STATUS CODE DESCR

- Indicates the student's inclusion status in the Federal Child Count
- Indicates whether a data issue is identified or no errors are found.
- Data should be reviewed for accuracy even when no errors are identified.

EMIS Alliance 30

30

Additional Information on FN270 Reporting

- DEW reviews the LRE on the latest reported IEP event effective as of October 31
- The value in the FN270 element takes precedence over the LRE
- FN270 may be reported for students in any grade (PK-12)
- For this element to be valid for the Federal Child Count, the student must already have an IEP reported to DEW that is valid on October 31. If no valid IEP exists on October 31, then the FN270 value will be ignored

31

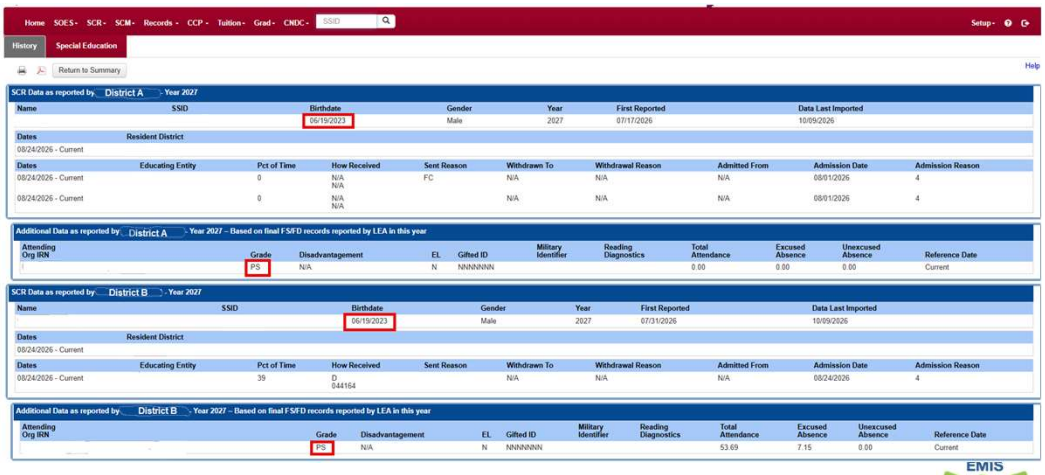

Additional Information on FN270 Reporting , cont'd

The LRE typically does not change without a new IEP being completed and reported, but there are some cases, especially for IEPs reported in the prior year that are still in effect on October 31, where the LRE could change

- Examples include but are not limited to
  - a student whose parent initially consented to special education services but withdrew consent before October 31
  - an expelled student who is placed in an alternative setting that is in effect on October 31
  - a preschool student (especially part-time), whose parental placement in a private preschool could change the LRE

32

Filter on FC0008

- Students may appear when incorrect or missing data exists at the District of Residence (DOR)
- **NEW:** Students who only have an ISP may appear due to an FCC business rule that includes non-public students over age 5 who have a disability and a How Received Code of 6
  - For these students, the process sets the LRE to IE39, the District LRE Source Code to 9, and the FED_CCT_FLAG to "Y"
- Data for the students should be reviewed for accuracy
- Apply filters to verify elements such as disability conditions and LREs
- Engage district staff to help verify data accuracy and completeness

EMIS Alliance 44

44

Quick Check

Status Codes indicate whether a student is included in the Federal Child Count (FCC) and provide additional information to help troubleshoot potential reporting issues. Use the Status Code, Source Code, FCC report data, SIS, and ODDEX to investigate the data. Correct errors, submit the updates to EMIS, and review the updated FCC Report.

- ❑ Have all status codes been reviewed, and all reporting issues corrected?
- ❑ When corrections have been made in the student information system (SIS), has that updated data been submitted to EMIS?
- ❑ Based on the inclusion criteria, are all special education students being counted correctly?

EMIS Alliance 47

47

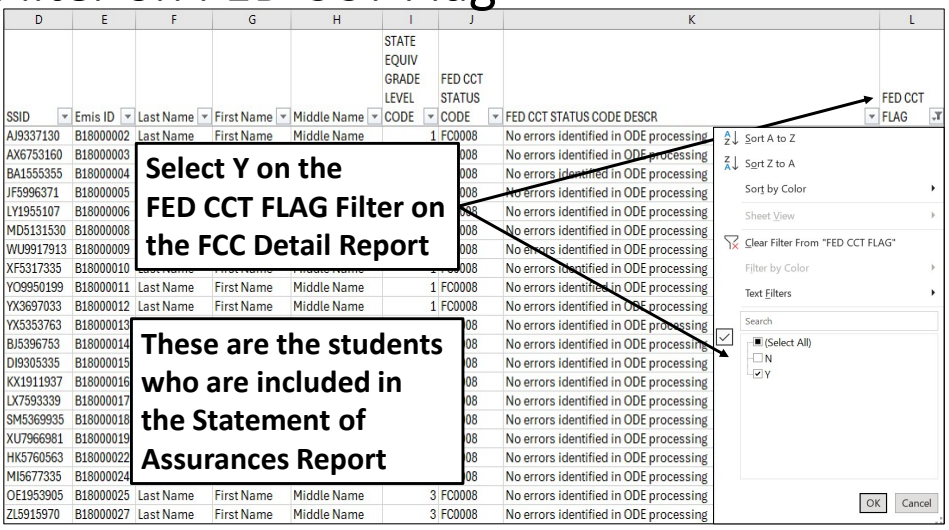

Understanding Statement of Assurances

- The report includes students who:
  - have a FED CCT FLAG = Y
  - are 3-, 4-, and 5-year-olds with a disability
  - are age 6 to 21 in each disability-specific category
- Using these criteria, the next series of slides will compare the FCC Detail Report to the FCC Statement of Assurances Report
- When counts on this report are incorrect, use the filters to identify which students are included or excluded.

Count: 6

1. From the filtered students on the FCC Detail Report, select a range of cells and see the "count" appear at the bottom of the spreadsheet.

2. This will match the count on the Statement of Assurances.

2. This will match the count on the Statement of Assurances.

Quick Check

The Federal Child Count Statement of Assurances Report is based on the same data as the FCC Detail Report. Use filters to match and compare data between the two reports. The Statement of Assurances Report may be requested during an audit.

- ❑Can you use filters to match the data between the two reports?
- ❑Are the student counts consistent with what you expected?
- ❑Has this data been shared with others in your district?

EMIS Alliance 57

57

Summary

- The FCC Reports contain both data to verify and issues that need correction.
- Some issues can be corrected, while others simply indicate that a student cannot be included in the count
- Collaborate with district staff to verify the data is both correct and complete
- “No errors” does not necessarily mean that your data is accurate
